The Fishmongers'
Company

Association of Rivers Trusts

where there's **water** there's **life**

Association of Rivers Trusts is to host the 15th International Salmonid Conference in Newcastle-Gateshead on the River Tyne. Normally held in North America this is the first time this prestigious event has taken place in the United Kingdom.

The conference is supported by leading organisations from Europe, the USA and Canada including, the American Fisheries Society (AFS) and Trout Unlimited (TU).

The 4 day conference has the title "Salmonids in the 21st Century" and will focus on the future and management of trout and salmon at both the local and international scale, focusing on four themes:

- Post Industrial River Recovery
- Marine and Climate Change
- River Basin Challenges
- Fisheries Management

The state of the art conference venue, the Baltic Centre for Contemporary Art, boasts a lecture theatre with its own dedicated cinema and features a massive window which overlooks the River Tyne, an encouraging example of an improving post industrial river. The event includes presentations and papers, with full audio visual support and escorted field visits to the rivers Tyne, Tweed and Eden.

The conference will also feature ART's 2006 Annual Awards Dinner, where excellence and achievement by Rivers Trusts and individuals is recognised, and substantial cash awards are made to be spent on river conservation projects of the recipient's choice.

The outline programme:

- 17th & 18th October 2006 - Presentations & scientific papers
- 19th & 20th October 2006 - Escorted field visits to rivers Tyne, Tweed and Eden
- 17th October - Association of Rivers Trusts' Annual Awards Dinner for 2006
