

# 4th North American Reservoir Symposium

June 6-9, 2007

Atlanta, Georgia

Balancing Fisheries Management and  
Water Uses for Impounded Rivers

Past Reservoir Symposia have marked significant advances in reservoir fisheries knowledge. This Symposium is destined to be the best update on reservoir fisheries topics since 1995. Attending the Symposium is your chance to interact with reservoir fisheries professionals from across the country!

- Topics Include:
- Balancing Fisheries Issues with Basin-wide Water Uses
  - Aquatic Habitat
  - Human Dimensions
  - Catch and Release and Use of Regulations
  - Stocking Issues
  - Assessments and Analysis

Southern Division AFS  
Reservoir Committee
